Summer Art Weeks 2024

A vibrant celebration of the region's creative talent

A very warm welcome to Summer Art Weeks 2024! We hope you enjoy flicking through the brochure, planning which artists to visit, and then keeping it for future reference.

This year's event sees over 400 artists and makers taking part at 121 venues across Warwickshire and Coventry. From cafés and churches to galleries and gardens, you'll find amazing original art presented by the talented creators. To see where the magic happens, pop along to a working studio – more info overleaf.

As well as the many new artists joining us this year, those you may have visited previously will be sharing new work. And all at affordable prices should you be tempted to treat yourself or buy a unique gift. As ever though, there is NO expectation or pressure to buy anything.

Since 2000 Warwickshire Open Studios has grown to become the county's largest annual exhibition of visual art. Run BY artists FOR artists and art lovers, the event is entirely self-funded with no external financial support. Entry is FREE to all our venues and everyone is welcome. We look forward to seeing you...

YOUR CHANCE TO PEEP INSIDE A WORKING STUDIO

Summer Art Weeks enables you to enjoy wonderful art in interesting places, but the best way to 'experience' it is by visiting a working studio.

As the name suggests, this was the original premise behind Warwickshire Open Studios. For a short period each year, artists and makers would open their studios and invite art lovers into their world.

Since 2000, our Summer Art Weeks has evolved to include group events and pop-up exhibitions in private homes and gardens as well as various public spaces, whilst remaining true to the essence of Open Studios. This year we're delighted to have a significant number of venues that are working studios and we hope that you'll manage to visit some of them.

Where the magic happens...

Whether it's in a converted garage, a purpose-built garden studio or a commercial space, a working studio gives you a peep into the artistic process and specialist equipment involved. Most of our artists will be working on new pieces during Summer Art Weeks. Seeing this in action gives you a deeper appreciation of the time, skill and patience required to produce the end product – from raw materials to finished artwork.

Visiting working studios also provides a fascinating insight into artists' creative spaces, from paint-splattered floors to wood shavings everywhere. What's more, artists love to chat about their work and their inspirations; it's even better if they can show not just tell!

Working studio

To identify the working studios taking part this summer, look for the label next to the individual entries, or go to the working studios index at the back of the brochure.

NOTE: Because of the tools and equipment in situ as well as artworks in progress, working studios are generally not suitable environments for young children or dogs. Please bear this in mind when planning your visits, or check with the individual artist(s) first.

OUR 2024 BURSARY WINNERS

We are delighted to once again support a diverse range of emerging artists with our Emerge bursary scheme for 2024. We welcomed applications from talented artists aged 18 and above, working in any art medium, who have never participated in WOS Summer Art Weeks before. Our bursary is designed to facilitate emerging artists to get involved in Summer Art Weeks, and assist in their transition to becoming an established artist.

Our winners have been awarded £250 cash as well as one year's free WOS registration and their Summer Art Weeks' entry paid, plus support in finding a venue. In addition, they receive mentoring support from an established artist to help them prepare for the event.

The winners:

Paula Wilkinson (jeweller at venue 51 & 87)

Paula creates her pieces from 100% recycled solid sterling silver and semi-precious gemstones. She draws her inspiration from nature and the beauty in the materials themselves. She says: "A little of my soul goes into each and every piece and although the process can be challenging, it is immensely satisfying when an imagined design becomes a completed piece of jewellery."

Tom Godwin (photographer at venue 99)

Tom uses analogue and digital experimental photography to distort landscapes and structures into surreal, dynamic images. Tom says: "The use of colour is a very important aspect of my practice as I am interested in the way different colours can evoke emotions and the way people attach personal memories to them."

Verónica Valdés (ceramicist at venue 59)

After a long break, Veronica has recently restarted her ceramics practice inspired by nature, plants, geological strata and stones. Veronica has recently embarked on a joint project with one of last year's bursary winners, Clare Shillock. Veronica says: "I enjoy using oxides and slips and experimenting with texture."

acknowledgements

Warwickshire Open Studios has grown considerably since it first began in 2000 into a very successful organisation, promoting the talented artists of Coventry and Warwickshire. This would not have been possible without our growing team of volunteers working behind the scenes providing their time and expertise.

We would like to take this opportunity to offer our particular thanks in 2024 to the following:

Janette George (Director)
Claire Henley (Deputy Director)
Eric Klein Velderman (Deputy Director - Branding)

Geraldine Jones (Communications & Marketing Support)
Elspeeth Hector (Brochure & Website Support)
Jo Bond (Finance)
Jacqui Smithson (Bursary Support)
Alix Almond (Instagram & Advertising)
Jaimie Volkaerts (Connect & CIC)
Katie Jones (Brand Support)

We offer our gratitude to Dan Parr (Brochure) and Alun Ward from Eye Division (Website) for their creative and technical support and Rosie Scares (Facebook) and Lucy Wilcock (PR) who are helping to spread the word.

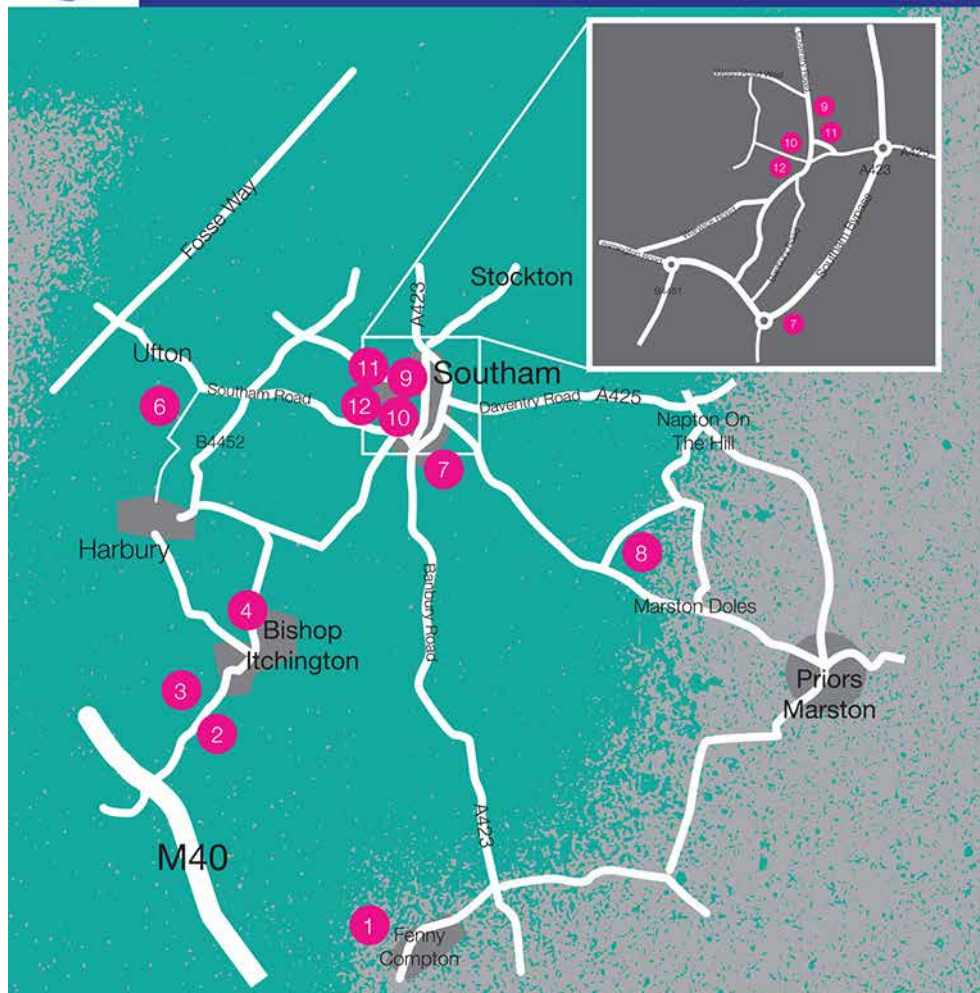

Finally, without our wonderful artists and members there would be no art, so thank you for putting yourself out there and sharing your work.

Ceramic is my passion - I find it therapeutic and incredibly exciting. This is what I try to reflect in my pieces. Everyday objects are my favourites to create. I love experimenting with new techniques and looking around our beautiful world for inspiration.

Ray Spence^P PHOTOGRAPHY

Susan Watt ^Q COLLAGE

susanwatt@me.com

Join me to marvel in the magic of collage. You'll find it hard to believe there is no paint! Vibrant colour, surprising texture, and hidden messages will leave you bewildered at how your brain makes sense of the image. That's the wonder of painting with paper!

Victoria Parsons ^R DRAWING

07708 925526 | www.victoriaparsons.co.uk | victoriaparsons51@gmail.com

I am a mixed media artist and tutor, inspired by the natural world both seen and unseen. My work is a combination of realism and imagination, with a mystical and ethereal quality. I run long established weekly classes in the "Art of Drawing" in Dunchurch.

Summer Art Weeks enables you to enjoy wonderful art in interesting places, but the best way to 'experience' it is by visiting a working studio. As the name suggests, this was the original premise behind Warwickshire Open Studios. Visiting working studios also provides a fascinating insight into artists' – often messy – creative spaces. What's more, artists love to chat about their work and their inspirations; it's even better if they can show not just tell!

Open to all artists, our Summer Art Weeks is a celebration of the quality and diversity of visual art found across Coventry and Warwickshire. It includes paintings, photography, drawings, ceramics, jewellery, installations, printmaking, textiles, metalwork and glassware. Venues range from artists' homes, studios and gardens to pop-up exhibitions in churches, cafés, pubs, shops, galleries and other wonderful venues.
